Optimize your outdoor cooking space with our advanced extraction technology.

The Chad-O-Chef Stainless Steel Extractor Systems are designed to extract the smoke generated by Chad-O-Chef Gas and Hybrid Braais.

We manufacture various lengths of ducting, elbows, brackets and couplings, in both Rigid and Flexible configurations, making it possible for you to use an extractor system for almost any application.

Contact our helpful staff for assistance deciding on the appropriate extractor components for your specific installation.

- Available in 4 sizes
- Available in top exit and rear exit configurations
- Inland grade / coastal grade stainless steel
- Supplied complete with a grease filter, drip tray and light-fitting
